

ROYAL AERONAUTICAL SOCIETY

DRONES POLLING

METHODOLOGY NOTE

ComRes interviewed 2,043 British adults online, between the 11th and 12th May 2016. Data were weighted to be representative of the British public by age, gender, region and socio-economic grade. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

To commission a voting intention poll or a public opinion survey please contact Katharine Peacock:

katharine.peacock@comres.co.uk

To register for Pollwatch, a monthly newsletter update on the polls, please email: pollwatch@comres.co.uk

Drones Survey

ONLINE Fieldwork: 11th - 12th May 2016

Absolutes/col percents

Table 1

Q.1 To what extent, if at all, do you support or oppose the use of drones in the UK in each of the following areas?

Summary

Base: All respondents

	Areas									
	Police surveillance (e.g. to monitor the border or for counter-terrorism)	Emergency response (e.g. in case of flooding or to assist with search & rescue)	Leisure activities (e.g. flying drones for fun, to take pictures)	Agriculture management (e.g. crop monitoring)	Infrastructure management and maintenance (e.g. monitoring buildings/bridges for repairs)	Logistics (e.g. parcel delivery)	Professional photography, filming and journalism	Military drone testing and training	Passenger transport (e.g. flying in a remotely piloted aircraft)	Environmental conservation (e.g. monitoring of coastal erosion)

Absolutes/col percents

Table 26

Q.4 To what extent, if at all, do you agree or disagree with each of the following statements?

Summary

Base: All respondents

	Statements					
	Drones can make an important contribution to the UK economy and society	The rules on the use of drones when breached should be more tightly enforced than is the case at the moment	Overall, drones pose more risks than opportunities for the UK	I am less worried about the commercial use of drones than private use of drones	Drones pose more of a safety risk than radio- controlled aircraft which have been around for years	I have a good understanding of the rules and regulations governing the use of drones in the UK
