**Q5. To what extent, if at all, do you agree or disagree with the following statements?**

**Base: All respondents/ All respondents who own a car**

**Summary table**

	Too much space is devoted to car parking in my neighbourhood	I rarely use my car but I still need it for occasional trips	I rarely use my car and have considered/ would be willing to consider alternatives such as joining a car club	I am/ would be prepared to pay for a resident parking permit to control parking by non-residents in my area	It is difficult to live in my area without a car	I would not move to a new home without parking provision, even if it has good provision of public transport	I would definitely buy an electric car as my next car, if there was a guaranteed charging space close to my home	It is easy and safe to walk to local amenities in my neighbourhood	Children cannot safely play or travel by foot or bike on the streets in my neighbourhood	I would like to cycle more but I'm worried about road danger
