

BBC News – Brexit Expectations Poll

METHODOLOGY NOTE

ComRes interviewed 1,004 British adults aged 18+ by telephone from 7th–10th July 2016. Data were weighted to be representative of all GB adults aged 18+. ComRes sets quotas during fieldwork and weights the raw data on the following demographic information: age, gender, government office region and social grade. The sample includes both landline and mobile telephone numbers. Additionally the data is weighted by past vote recall to the EU referendum. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

To commission a voting intention poll or a public opinion survey please contact Tom Mludzinski: tom.mludzinski@comres.co.uk

To register for Pollwatch, a monthly newsletter update on the polls, please email: pollwatch@comres.co.uk

Table 16

Q5. Following the result of the EU referendum, the UK will now have to negotiate a new deal on the EU single market. The EU Single Market allows countries in the EU to trade with each other without additional charges or regulation standards. As part of this access, they must agree to rules allowing free movement of people including the right of EU citizens to be able to live and work anywhere in the EU.

Base: All respondents
