| | Statements | | | | | | |

| | Ordinary police officers do an excellent job but it often seems that chief constables and their political masters make it harder for them to do their job effectively | Police officers have lost control of our streets and criminals no longer have any fear of being caught and brought to justice | I believe that stopping and searching suspects is a useful tool to both deter and detect crime | Political correctness is at least partly to blame for the murder rate in some cities like London by diverting police resources to other priorities | Political correctness and the fear of offending minorities is at least partly to blame for the problems encountered in tackling grooming gangs in major UK cities | I would like to see more police on foot patrol in my neighbourhood | The police need to act with political correctness as it encourages acceptance and decency in society |
