METHODOLOGY

ComRes interviewed 2,033 GB adults online between 15th and 17th March 2019. Data were weighted to be demographically representative of all GB adults by age, gender, region and social grade. Voting intention questions were also weighted by past vote recall and likelihood to vote and all other questions also weighted by 2016 EU Referendum results. ComRes is a member of the British Polling Council and abides by its rules.

	Statements							
	Theresa May should resign as Prime Minister immediately	Theresa May is right to try a third time to get the EU Withdrawal Agreement through Parliament	It has felt as if the EU has been trying to punish the UK over the Brexit negotiations	I trust MPs to do the right thing by the country over Brexit	In principle, I would be happy to see the date for the UK's departure from the EU to be extended beyond 29th March	If the UK left the EU without a deal on 29 March it would briefly cause some uncertainty but then ultimately work out ok	Leaving the EU without a deal on 29 March would be the best possible outcome	It would have caused fewer problems had the UK left the EU without a deal as quickly as possible in 2016, rather than spending the past two and a half years trying to negotiate a deal
